PUERTO RICO
CONVENTION CENTER
Pedro Rossetti

Its design is suggestive of a wave in motion.

Its colors reflect the vibrant natural palette of the Caribbean. And at 600,000 total sq. ft. (55,742 sq. m.), its size ranks it as the largest meeting facility in the region. The Puerto Rico Convention Center accommodates groups of 10 to 10,000 in true world-class style, with soaring interior and exterior function spaces that can be customized and optimized for nearly any event.

Situated in the heart of San Juan on the Isla Grande peninsula, the Center is just steps from a rich array of cultural attractions, historic treasures and architectural masterpieces dating back to Puerto Rico's 500-year-old Spanish roots. Combine that classic character with our vast range of contemporary and stylish dining, shopping, hotels, attractions and nightlife choices – and you get a destination with one-of-a-kind flavor found only here.

Our magnificent beaches, championship golf courses, lush tropical gardens, and an average 82°F (28°C) year-round temperature will make your visit simply irresistible.

As the home of Fortune 100/500 companies that engage in business all over the world, San Juan also offers a buttoned-down business atmosphere – including the Caribbean's most sophisticated technology and telecommunications resources such as satellite feeds, high-speed Internet, videoconferencing, and more.

Traveling to Puerto Rico is accessible and easy for domestic U.S. and international travelers. No passport is required for U.S. citizens – and hundreds of non-stop flights travel in and out of Luis Muñoz Marín International Airport (SJU) every day.

Shipping and Taxes

To ensure that you have everything you need for your meeting, Puerto Rico offers convenient and efficient shipping options. Since we are an island, there are two choices of shipment: by air or by combination of land and sea (don't worry, it's quicker and more affordable than you think).

As the Caribbean's largest seaport, San Juan is serviced by numerous carriers – with goods from the U.S. East Coast typically arriving at the Port of San Juan approximately within a week. Shipping to Puerto Rico often costs considerably less than shipping within the Continental U.S. Once your shipment arrives on the island, you can choose from 38 highly qualified freight consolidators and/or forwarders.

All inbound shipments to the island are subject to a 6.6% excise tax. Discover Puerto Rico, the official sales and marketing agent for the Puerto Rico Convention Center, can provide assistance with filing excise tax exemption letters if exhibit materials will be returning to their point of origin within 60 days.
