

What's New IN PUERTO RICO?

Puerto Rico is thriving, and exciting projects, initiatives, and businesses are constantly developing. Here's your monthly update for June 2023 about the new developments on the Island that continue to improve the #LiveBoricua experience for visitors.

NORTH & METRO REGION

In the North and Metro region of the Island, a New York-style pizza place called Selena opened in the heart of Río Piedras. The craft beer scene continues to grow on the Island, and Lúpulos Hermanos is one of the newest additions to the industry. Also, Sashimi Asian Bistro is a new restaurant in Bayamón that blends Asian and Caribbean cuisine.

Café Botánico is a new coffee shop in Old San Juan serving coffee, lemonades, and healthy meal options. Café con Ce opened a second location in Calle Cerra, Santurce. Additionally, Cuela, an online local coffee shop, opened its first location, which you can now visit in Guaynabo.
