JAYUYA COFFEE HACIENDA AND MOUNTAIN REGION TOUR

One of Puerto Rico's secrets is its beautiful mountain coffee region. We have one of the best coffees in the world, and many years ago it was exported globally.

In this experience you visit an active coffee hacienda in Jayuya and learn about their history while you taste their exquisite cafe. Also, you will visit Valle de Coabey, Casa Canales, and Piedra Escrita. We will talk about pre-colonial to revolutionary history and how it has evolved in the mountain region of the island. You will be accompanied by a certified tour guide, and historian.
